

Spotlight on Year 1

In Year 1, the children have been exploring colour through lots of creative activities. They learned that primary colours can be mixed to create secondary colours and enjoyed painting their very own colour wheels independently. The children then experimented with adding white and black paint to make different tints and shades. We have also started looking at the work of Brazilian artist Romero Britto, whose artwork is full of bold colours and patterns. The children are very excited to use what they've learned to create their own Britto-inspired art in the coming weeks!
