Pirate Hat Instructions

1. Print the hat template onto card.

2. Cut along all of the solid lines on the template, so you have 4 separate pieces.

3. Lay the biggest piece of paper on a flat surface in front of you.

4. Stick tab 1 behind the paper next to it, so the hat bends upwards at both ends.

5. Stick tabs 4 and 5 from the strip of paper, behind tabs 4 and 5 on the hat.

6. Stick tab 2 on the reverse of the paper strip, making sure the ribbon tail is pointing downwards.

7. Stick tab 3 on the opposite end, again with the ribbon tail pointing down.

8. Use the slits to fasten the hat together. The hat is size adjustable using different slits.
