

Year 5 Home Learning Challenge Week 12

Music

Use your favourite song as inspiration to write a song of your own. Rewrite the lyrics and link it to what is happening in the world and your local community at this time.

Make a music video

Make a music video to perform your song.

Use some paper to plan your music video. Maybe you could film different sections in different rooms of your house, in your garden or when you're out and about!

Think about costumes and a dance routine. Perhaps you could involve members of your family too!

DT

Make a musical instrument.

There are so many ideas for how to make a simple musical instrument at home here: <https://artscraftsymom.com/diy-musical-instruments-for-kids-to-make-and-play/>

Choose your favourite, design it first, then gather your equipment and get creative! Happy playing!

Perhaps your instrument could feature in your music video!
